PROFESSIONAL SUMMARY

Results-driven software engineer with strong foundation in distributed systems, high-concurrency backend services, and clean architecture. Experienced in designing fault-tolerant microservices, optimizing database throughput, and shipping production code with rigorous test coverage.

ACADEMIC QUALIFICATIONS

Master of Technology in Software Systems — Jadavpur University *2020 - 2024*

Cumulative Grade Point Average: 8.50/10.0 | Class XII: 94% | Class X: 90%

WORK EXPERIENCE

Associate Software Engineer — Zomato Limited, Gurugram, India *Jun 2023 - Present*

- Migrated monolithic checkout service to gRPC microservices, shrinking cloud compute costs by 32% and reducing deployment cycle times from 4 hours to 12 minutes.
- Designed real-time event pipeline consuming 5M daily telemetry records via Apache Kafka, providing sub-second fraud detection alerts.
- Implemented automated circuit-breaker pattern with Resilience4j across 8 downstream microservices, preventing cascade outages during third-party gateway downtime.

TECHNICAL PROJECTS

Autonomous Code Review Linter & Security Auditor | Technologies: Python, AST, Tree-sitter, Docker, FastAPI

- Engineered static analysis pipeline parsing abstract syntax trees (ASTs) to detect SQL injection, unvalidated deserialization, and memory leaks.
- Built automated GitHub Action integration running checks across 200+ pull requests with an average scan duration under 3.5 seconds.
- Containerized execution sandbox using gVisor and Docker to securely isolate untrusted student code submissions.

Peer-to-Peer File Transfer Protocol with NAT Traversal | Technologies: Rust, STUN/TURN, UDP, Tokio, Cryptography

- Developed user-space P2P file synchronization tool implementing UDP hole-punching and ICE protocol to bypass restrictive symmetric NATs.
- Utilized ChaCha20-Poly1305 authenticated encryption to guarantee confidentiality and packet integrity over public Wi-Fi networks.
- Achieved wire-speed throughput of 940 Mbps over local gigabit connections using zero-copy memory-mapped file buffers.

TECHNICAL SKILLS

Languages: Go, Java, Python, TypeScript, C++, SQL

Frameworks & Systems: Spring Boot, Node.js, FastAPI, React, Next.js, gRPC

Databases & Storage: PostgreSQL, Redis, MongoDB, Apache Kafka, Elasticsearch

Cloud & DevOps: Docker, Kubernetes, AWS (EC2, S3, RDS), Git, CI/CD Pipelines

ACHIEVEMENTS & HONORS

- Secured All India Rank 852 in JEE Advanced out of 250,000 candidates.
- Global Rank 139 out of 18,000+ participants in LeetCode Weekly Contest.
- Winner of National Smart India Hackathon (Ministry of Education) in Software Edition.

POSITIONS OF RESPONSIBILITY

- Lead Coordinator, Departmental Technical Symposium (orchestrated coding marathons for 1,200+ students).
- Peer Mentor, Data Structures and Algorithms Laboratory (guided 60+ junior undergraduates).

DECLARATION

I hereby declare that all the information furnished above is authentic and true to the best of my knowledge.
